Parental meal pre-ordering

Parents can conveniently pre-order their children's school meals in advance or on the day using iPayimpact. Pre-ordering allows parents to plan and customise their child's meals according to preferences and dietary needs, promoting healthier eating habits.

Pre-ordering simplifies the process for parents, enabling them to order meals on their phones or desktop, anytime and anywhere, while providing valuable insights for schools to optimise menu planning, reduce food waste, and prepare sufficient meal quantities.

By utilising iPayimpact's pre-ordering capability, parents have the peace of mind that their child will have a well-balanced and satisfying school meal.

Classroom smartboard pre-ordering

iPayimpact's Smartboard pre-order feature offers an interactive meal-ordering experience for students, promoting healthy choices and reducing food wastage. With the assistance of teachers, primary school students can conveniently pre-order their meals from the interactive whiteboard system in the classroom to select their lunch for the day.

The live system generates a report for catering staff, and billing is done automatically, without pupils needing to go through the till point.

Topping up online accounts

iPayimpact makes it easy for parents to top up their child's school meal account using various payment methods. Parents can top up their child's funds using their debit, credit card, **Google Pay, or Apple Pay**, providing a convenient and hassle-free way to ensure pupils have sufficient funds to purchase school meals.

Set up automatic payments

With iPayimpact's auto-pay feature, parents can easily set up a payment schedule that suits their needs. This feature is handy for busy parents who can ensure their child's account is topped up regularly. Additionally, it provides a convenient way for parents to manage larger school-related costs in instalments rather than paying a lump sum upfront. This automatic feature means parents have peace of mind knowing that payments are transferred into their child's account at their chosen date and time, ensuring their child's account is topped up and ready to use!

Manage trips & events

iPayimpact simplifies event and ticket management for primary schools. Parents can easily purchase tickets for school events or pay for school trips through the platform, eliminating the need for printing forms and chasing payments. Schools fully control event details and ticket availability, ensuring efficient planning and organisation.

Additionally, iPayimpact enables parents to pay for school trips and events using cash or cheques, with all transactions securely recorded online.

Online school shop

Schools can sell various items directly through iPayimpact's school shop feature. This convenient functionality offers numerous benefits for both schools and parents.

For schools, it provides a centralised and efficient way to manage school uniform sales, stationery and other school-related items. Schools can easily set up and manage their online shop, streamline inventory management, and track real-time sales and payments.

Parents can browse and purchase items conveniently from their iPayimpact account, eliminating the need for separate online platforms or physical visits to the school and providing a one-stop shop for all school-related purchases.

View purchase history

iPayimpact's purchase history section provides parents with a convenient overview of their child's school-related expenses, allowing them to track and monitor their payment history in one place.

Parents can access detailed purchase information, including the date and time of the transaction, the amount paid, the items purchased, and even the specific till used for the payment. This level of detail offers transparency and helps parents stay informed about their child's spending at school.

Easy registration

iPayimpact or mygovscot account (Scotland) provides a user-friendly and efficient solution for parents to manage their child's school-related expenses. Following the simple registration process, parents can easily stay updated on their child's account and ensure they have the necessary funds to purchase school meals.
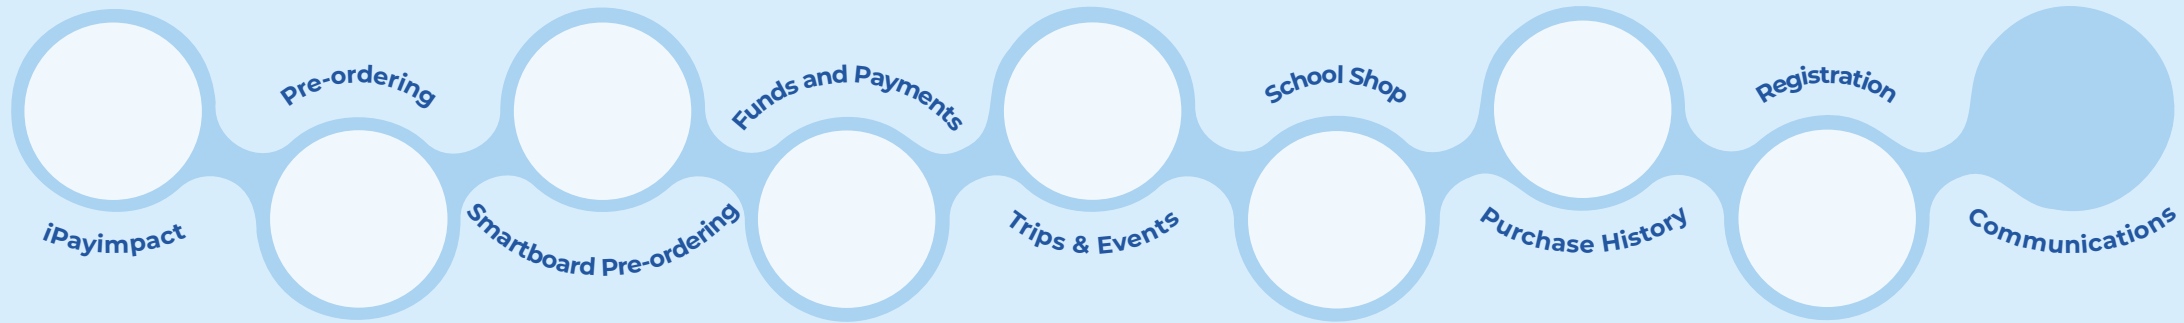

Adding multiple child accounts

Parents can easily manage multiple child accounts with their login without needing to remember separate logins for each child or worry about managing multiple accounts with different login information.

Be informed with communications

iPayimpact Communications gives primary schools complete control over communication with the school community. Schools can send real-time updates and messages to parents through one-way or two-way messaging. This feature provides a hassle-free way for schools to keep parents informed about important school news and events without navigating multiple channels or platforms.

iPayimpact Communications empowers schools to offer effective and streamlined communications with parents, fostering positive parent-school relationships.
